

American Presidents Truman to Reagan

Read through the information pertaining to the presidents from Truman to Reagan. **Construct an organizer that names the president, the years he was in office, his domestic policy accomplishments/failures, and his foreign policy accomplishments/failures.** For each president you will **also have to pick 1 domestic and 1 foreign** policy accomplishments and provide a brief, but specific write up about each one. This way, on the exam, you'll be able to get full marks because you won't be name dropping, but actually showing me you can not only name, but explain what the accomplishment was and why it was important.

This material will be on the final exam but I won't be taking it up in class as a formal lesson. It will be referenced as we cover these decades and again, ensure that you have read this stuff and completed the chart as it will be on the final exam.
