

Enlightenment Agricultural Activity

Work in pairs to complete the following.

Listen to the following song and, using the various technological tools at your disposal, identify the name of the song and the band that played it.

Once you know the name of the band I want you to make the connection between the name and the Enlightenment. In particular, discuss the agricultural improvements of the Enlightenment and the impact they had on Europe at that time.

When you have completed the task above, and with the technology at your disposal, I want you to research and learn about Robert Bakewell and Thomas Malthus. Prepare a brief bio (separate) of each one highlighting their contribution to Europe during the Enlightenment. As well, comment on whether or not their contributions still benefit us, or apply to us, today.
